Reiki stems from Usui Mikao's direct experience of the self, which he conveys in this quote:

*I exist in the Universe,
and the Universe exists in me.*

Usui Reiki Ryoho is thus a system of striving toward wholeness, not merely healing. Together we will explore how Usui translated his personal, spiritual experience into the teachings of Reiki and discover how this theme frames our Reiki practice.

Nicholas will lead us through the **gihō**, self-development techniques and meditations that Usui taught in the early days of Reiki, providing historical, linguistic, and spiritual context so we can better use these tools for personal healing and transformation. Through this interactive exploration of the deeper meaning of Reiki as a healing system and spiritual practice, we can cultivate our own direct experiences of our true nature and our place in the universe, thereby helping us become more compassionate and effective practitioners.
